Comfort ed ergonomia contraddistinguono la collezione Ribbon disegnata dal duo norvegese Anderssen & Voll. Un sinuoso gioco di pieni e vuoti, privo di svolte inaspettate, crea un perfetto equilibrio fatto di proporzioni armoniose che sembrano nascere da un'idea di perfezione. Un accurato studio di forme e dimensioni declina uno stile preciso e riconoscibile in diverse soluzioni adattabili a più spazi e contesti. Proporzioni e dimensioni declinate in diverse soluzioni all'insegna della massima versatilità. La scocca di sedia e sgabello presenta una doppia curva, delineando una fluida continuità di superfici, mentre lo schienale della poltrona configura la comodità di un sostegno avvolgente. Le gambe, dalla sagoma morbida e arrotondata, leggere e dinamiche, si sposano armonicamente con la sinuosità della seduta. L'eclettica famiglia Ribbon coniuga design, funzionalità e dettagli raffinati per arredare ogni genere di interno.

Comfort and ergonomics distinguish the Ribbon collection designed by the Norwegian duo Anderssen & Voll. A sinuous game of solids, voids, and fluid intuitive turns, create an ideal balance of harmonious proportions that seem to arise from an idea of perfection. A careful study of shapes and sizes defines a precise and recognisable style in different solutions, adaptable to multiple spaces and contexts. Proportions and dimensions defined in different solutions in the name of maximum versatility. The shell of the stool and chair is shaped and curved on two planes, outlining a fluid continuity of surfaces, while the back of the armchair configures the comfort of an enveloping support. The legs, with a soft and rounded shape, light and dynamic, blend harmoniously with the sinuosity of the seat. The eclectic Ribbon family combines design, functionality and refined details to furnish any interior.

PULIZIA, USO E MANUTENZIONE

Per la pulizia periodica degli elementi in legno e metallo, si prega di utilizzare acqua tiepida e un panno morbido, eventualmente sapone neutro diluito in acqua, o prodotti consigliati per legno o metallo. Non utilizzare prodotti abrasivi o alcoolici. Dopo la pulizia asciugare il prodotto con un panno. Per pulire la tappezzeria, fare riferimento alla scheda del produttore. Per sollevare o spostare il prodotto afferrare saldamente la struttura e non parti di essa. Il prodotto non deve essere sottoposto a carichi decentrati ed è stato progettato per essere utilizzato in condizioni normali di appoggio. Non utilizzare il prodotto in modo inappropriato: non dondolarsi o sedersi sopra in modo errato, in quanto ciò può compromettere la stabilità, la durata del prodotto e la sicurezza dell'utilizzatore. Maneggiare con cura evitando urti o graffi con altri oggetti. Alla fine della vita del prodotto, tutte le parti devono essere smaltite secondo la normativa vigente. Cantarutti Srl, al fine di migliorare l'aspetto tecnico e qualitativo della sua produzione, ha il diritto di modificare, implementare, aggiornare e/o modificare i modelli in qualsiasi momento e senza notifica.

CLEANING, USE AND MAINTENANCE

For the periodic cleaning of wood and metal elements, please use warm water, and a soft cloth, eventually a neutral soap diluted in water or products recommended for wood or metal. Do not use abrasive or alcoholic products. After cleaning dry the product with a cloth. To clean the upholstery, please refer to the related manufacturing company. To lift or move the product, hold the structure firmly and not parts of it. The product must not be subjected to decentralised loads, it has been designed to be used in normal support conditions. Do not use the product in an inappropriate way: do not swing on or sit on it in an incorrect way, this may compromise stability and/or durability of the product and the safety of the user. Handle the product with care, avoiding impacts with other objects. At the end of the product's life, all parts must be disposed in accordance to the legislation in force. Cantarutti Srl, in order to improve the technical and qualitative details of its production, shall be entitled to amend, implement, upgrade and/or modify the models at any time and without notification.
