

Apero / Barstool Design / Martin Drechsel

Apero takes the traditional, German, wooden chair and skilfully gives it a contemporary look. EMU's knowhow of working with metal makes the tubular metal seat and back appear light and airy, resulting in a fine, smooth silhouette, so that the light playing between the horizontal and vertical lines reflects an unusual pattern of squares. Its minimal, graphic, multi-purpose design discreetly adapts to any type of environment and style. The collection consists of a chair, armchair and bar stool.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.
