

Terra / Foot stool

Design / LCM Marin design studio

'I imagined seeing the Earth from a privileged point of view. Terra is a generously sized folding lounge chair, which can migrate from the sea to the land, from the inside to the outside, and vice versa. Design, lightness, sturdiness, and choice of materials are its peculiarities.' Terra is a universal and charming product, as it adapts to any environment and lends itself to the most varied mix and matches with other collections. A folding lounge chair, functional and comfortable, which perfectly complements both dining and living relaxation environments, both outdoor and indoor.

Description

Code: **723**
Typology: **Footrest**
Collection: **Terra**

Folding: Yes
Static Load: 100 Kg

Technical Info

Width: **75 cm**
Depth: **46 cm**
Height: **40 cm**
Weight: **4.70 Kg**
Static Load: **100 Kg**

Packaging

Packages: **1**
Pieces for pack: **1**
Dimensions: **84x13x48 cm**
Volume: **0.053 mc**

Polyethylene bag and cardboard box

Terra / Foot stool

Materials

Aluminium

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.
