

Darwin / Lounge chair
Design / Lucidi / Pevere

Test
EN581-1 / EN581-2

The ergonomic proportions and lightness of structural lines guarantee both comfort and adaptability. Darwin is a steel collection, which revisits classic themes, in a delicate metal sheet mesh placed within a contemporary geometric structure. The texture effect of chair and backrest is the defining feature of the collection's style, which merges with the structural lines. The Darwin range consists of chairs, armchairs, tables, stools and counter tables, loungers and coffee tables. Defined by its exceptional style, Darwin is suited to all kinds of furnishing contexts.

Description

Code: **524**
Typology: **Armchairs**
Collection: **Darwin**

Stackable: 4
Static Load: 200 Kg
Test: EN581-1 / EN581-2
Cushion Material: Acrylic fabric

Technical Info

Width: **77 cm**
Depth: **73 cm**
Height: **75 cm**
Weight: **6.7 Kg**
Static Load: **200 Kg**

Packaging

Packages: **1**
Pieces for pack: **2**
Dimensions: **86x78x81 cm**
Volume: **0.543 mc**

Polyethylene bag and cardboard box

Materials

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosio process.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

Cushion Material

Acrylic fabric

The 100% acrylic fabrics combined with a polyurethane internal coating. This step makes it water-repellent, highly resistant to UV rays for excellent outdoor performance.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax. Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. In caso di utilizzo vicino al mare o piscine si consiglia un lavaggio periodico. Lavaggi frequenti: seguire le istruzioni specifiche per ogni materiale riportate sull'apposita etichetta. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Non utilizzare spugne abrasive per smacchiare e non trattare con candeggina e cloro.
