

Yard / Stackable sunbed Design / Stefan Diez

The woven elastic straps, joined in an innovative way to the sophisticated aluminium frame, give life to a collection defined by outstanding, eclectic style and superb comfort, perfectly suitable for outdoor uses. Yard is a complete range of furniture, made up of a chair, armchair, fixed tables, relaxing armchairs, coffee tables of various sizes and a sunbed. The signature feature of the Yard collection is the way it mixes materials, such as stainless steel or ash with aluminium. The collection is completed with counter tables of various sizes, for both contract and residential settings.

Description

Code: **504**
Typology: **Sunloungers**
Collection: **Yard**

Stackable: 2
Reclining: Yes
Static Load: 200 Kg
Sitting: Cinghie Elastiche
Back: Cinghie Elastiche

Technical Info

Width: **200 cm**
Depth: **75 cm**
Height: **38-101 cm**
Weight: **15.4 Kg**
Static Load: **200 Kg**

Packaging

Packages: **1**
Pieces for pack: **1**
Dimensions: **206x81x42 cm**
Volume: **0.700 mü**

Polyethylene bag and cardboard box

Yard / Stackable sunbed
Design / Stefan Diez

Colors

White - Brown

White - Grey/Green

Black - Grey/Black

Grey - Grey/Green

Indian Brown - Brown

Materials

Aluminium

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.

Elastic Belt

Obtained by weaving synthetic materials such as propylene fibres (71%) and synthetic rubber thread (29%), enabling it to be used outside.

Maintenance: To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter. Avoid prolonged contact with greasy substances and/or dyes, which may be absorbed by the coating material causing permanent staining and deterioration of the yarn structure. Do not use solvents or solvent-based detergents (avoid using acetone). Use water and non-abrasive colourless liquid detergents with neutral PH. Leave the detergent to react on for a few minutes, if required. Rinse thoroughly with water at a temperature not exceeding 30°C. If pressurised devices are used, keep the diffuser tip at least 60 / 70 cm away from the surface of the item. Repeat the operation if necessary.
