

# stone

design:  
Tomasz Augustyniak  
2011

STONE collection is characterized by its original and modern shape which alludes to the classic Bauhaus style. The line comprises sofas and armchairs in several variants with or without armrests, including the metal frame version. Furniture is made up from modules, which makes it possible to tailor the lengths to individual needs. The wide range of solutions makes it possible to arrange public interior spaces as well as office and residential interiors.
