OFFECCT

## PRODUCT INFORMATION

The highly popular Q-series, designed by Olle Anderson, started in 1997 with the armchair Quilt. The furniture suite later expanded with the bar stool Qool, easy chair Queen and stackable chair Quick. The chairs seating and backrest have been designed for maximum sitting comfort by implementing technology found in the car industry. Although designed for different purposes, the chairs carry the same sober features and is easily recognized for their characteristic quilted pattern.

"The Q family is a series of sitting furniture for different means, that together carries the design philosophy of a solid, timeless design with common and clear features. The combination of material and high attention to detail in the upholstery work, is proof of genuine craftsmanship. The unsurpassed comfort has been achieved through the system of springs which has been integrated in with the moulded cold foam", says Olle Anderson.
