Keel, 922
sedia \ chair

La sedia e poltroncina Keel nascono da una ricerca sul tema del rapporto tra rigore geometrico e sinuosità organica. Keel, nome che richiama il mondo della nautica, rappresenta infatti il tentativo di trovare il miglior equilibrio tra una struttura lineare in tondino di metallo ed elementi d'appoggio in massello di frassino dalle forme morbide e sinuose che presentano una lavorazione molto particolare. Keel è disponibile anche nella versione outdoor in massello di iroko.

Keel chair and small armchair were born from the research between geometric rigor and organic sinuosity. Keel, name recalling the nautical world, represents the attempt to find equilibrium between the linear structure in embossed metal rod and the sinuous and soft lines of the backing elements in solid ash wood, presenting a very particular processing. Keel is available also in the outdoor version in solid Iroko wood.
