Data sheet CANTHA

Set of hangers that provide the spaces with a practical as well as beautiful complement. Following the philosophy of the search for organic and natural, these sinuous shapes have been created that give the design a touch of elegance and originality, spontaneously recalling dew drops.

Cantha coat racks, made of aluminum, are suitable for any interior design trend due to their wide availability in 4 sizes, 17 colors and with the possibility of adding a natural oak veneer.

Paula Chacartegui

Paula Chacartegui is a product design graduate from IED Barcelona, and specialized in luxury design and crafts from the Cantonal School of Art of Lausanne. She currently works in the interior design office am29 in Mallorca, from where she develops products for the island's hotel sector. Paula herself feels a strong attraction to the nature that surrounds her, from which the inspiration for many of her projects is born.

Technical description:

Material: Aluminum

Dimensions:

- CANTHA S: Ø40x27 mm
- CANTHA M: Ø60x27 mm
- CANTHA L: Ø100x37 mm
- CANTHA XL: Ø140x37 mm

For manufacturing reasons, the design may have small variations

mm · inches

Finishes:

white gloss	satin black RAL 9011	grey beige gloss RAL 1019	mustard gloss RAL 1012	textured red RAL 3001	textured blue RAL 5011	textured garnet RAL 3005	textured green RAL 6009	textured red sirung	textured bronze bagana
	*Optional front plate								
textured rust rame									
	matt oak plywood								

*Polyester paint

Consult for special dimensions or any other modification.

Maintenance:**-Wood:**

We recommend using a cloth or cleaning products for wood. Avoid using products containing solvents and/or alcohol.

-Polyester Paint:

For dry dirt (dust), use a damp cloth. For greasy/oily stains (fingerprints), wipe with a sponge with water and dishwashing liquid. Rinse with a damp cloth. Avoid using products containing solvents and/or pure ethyl alcohol.

-Aluminium-metal-glass-melamine-plastic:

We recommend using normal cleaning products for delicate surfaces. Alcohol, solvents and abrasive agents must be avoided.

Assembly:
