TURN AROUND.210 / design MARTIN BALLENDAT

Turn Around è stato ispirato dai lavori sperimentali del designer Martin Ballendat nel suo reparto tappezzeria. L'obiettivo era quello di offrire una svolta contemporanea e interessante al classico design del sedile rotondo. Combinando il sedile girevole con una base in metallo, è stato creato Turn Around: uno sgabello con 2 diverse altezze di seduta utilizzabile sia in ambito residenziale che in ambito ricettivo.

Turn Around was inspired by the experimental works of designer Martin Ballendat in his upholstery department. The aim was to offer a contemporary and interesting twist on the classic round seat design. Combined with a rotatable steel base, Turn Around was created. A stool with 2 different seat heights that can be used in both residential homes and hospitality venues.
