INTERNAL DIFFUSER

Fig.7

Fig.8

Unfasten the screw of the cable clamp (I). Slide-off from the electrical cable (E) the lamp holder (D), lamp holder support (J) and cable clamp (I). (Fig.7)

Unfasten the internal diffuser (B) from the lamp base (F). (Fig.8)

Assemble now the new spare-part:
Fasten the internal diffuser (B) on the lamp base (F). (Fig.8)

Insert through the electrical cable (E), the cable clamp (I) and the lamp holder support (J). Connect the wires to the terminals (H) of the lamp holder (D) respecting the polarities and fasten the screw of the cable clamp (I). (Fig.7)

Insert the lamp holder (D) in his apposite position inside the internal diffuser (B). (Fig.5 page 9)

Pull-out the excess cable (E) present inside the lamp base (F). (Fig.4 page 8)

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off.
For the installation of the spare-part, it is necessary to consult a qualified electrician.

LED DIMMER 1004P LFP100-240V 4-150WHL 4-25W

Fig.3

Fig.3.1

Remove the cable clamps by unfastening the 4 screws (A) and disconnect the wires from the terminal blocks through a tiny flat headed screw driver;

Fig.4

Replace the dimmer and connect the wires. When connecting the wires it is necessary to respect the polarities (L = Brown and N = Blue) to the terminal box.

Lock the electrical cables by fastening the screws (A) of the cable clamps and make sure to block the isolation of the electrical cable.

Close the dimmer box.

It is necessary to place the casing on top and press down until it locks in.

it is necessary to insert the n°2 screws using a star screw driver

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.
