GENERAL DESCRIPTION

Bin collection made of stainless steel 304, specially designed for public areas, offices, shops and hotel industry.

DIMENSIONS

MODELS

RIGA INOX waste paper bin 20l, 30l, 50l y 90l

RIGA INOX ashtray-bin

RIGA INOX and umbrella stand.

MATERIALS AND FINISHES

Body of the bin is polished and satin finished in the outer side, and textured in the inner side. Covers (except that of the ashtray) are finished with epoxy powder coating, 80 micron 30% matte.

20L & 30L bins

Body made of stainless steel 304, 0.8 mm thick, polished and satin finished.

ABS base, black painted. A latticed and ribbed inner side to provide rigidity to the bin, and smooth outer side with 4 cavities to place 4 rubber anti-slip blocks.

Zinc-plated iron handles inside the body enable to place and take out a plastic bag in an easy way. Handle

support is made of injected ABS, black colour.

Cover of both models is made of steel, 1.2 mm thick. They have a cataphoresis treatment and are afterwards painted with epoxy powder coating 80 micron 30% matte in different finishes: silver RAL 9006 and for the recycling, green RAL 6000, ochre RAL 1024, beige RAL 1019 and blue RAL 5000.

This piece visually covers the rubbish, which can be thrown throughout a squared whole of 120 x120 mm. Volume small bin: 20L and volume big bin: 30L.

50L & 90L bins

Body made of steel 304, 0.8 mm thick, with epoxy powder coating.

Base is made of inox steel plate and enables to fix the bin to the floor.

Likewise, this model also enables to joint the different modules by means of two railings enclosed with the packaging.

Zinc-plated iron handles inside the body enable to place and take out a plastic bag in an easy way.

Cover of both models is made of steel, 1.2mm thick. They have a cataphoresis treatment and are afterwards painted with epoxy powder coating 80 micron 30% matte in different finishes: silver RAL 9006 and for the recycling, green RAL 6000, ochre RAL 1024, beige RAL 1019 and blue RAL 5000.

This piece visually covers the rubbish, which can be thrown throughout a squared whole of 173 x173 mm.

Bin-ashtray

Body made of stainless steel 304, 0.8 mm thick, polished and satin finished.

ABS base, black painted, with a latticed and ribbed inner side to provide rigidity to the bin, and a smooth outer side with 4 cavities to place 4 rubber anti-slip blocks.

Zinc-plated iron handles inside the body enable to place and take out a plastic bag in an easy way.

In this model rubbish is thrown throughout a squared whole of 180 x180 mm placed at the front.

Ashtray cover is made of extruded aluminium (alloy 6060), with anodized finishing.

Umbrella stand

Body made of stainless steel 304, 0.8 mm thick, polished and satin finished.

ABS base, black painted, with a latticed and ribbed inner side to provide rigidity to the bin, and a smooth outer side with 4 cavities to place 4 rubber anti-slip blocks.

Umbrella stand partitions are made up with two stainless steel tubes, polished and satin finished, 8 mm diameter, cross-shaped placed.
