

SPECIFICATION

Range: **DESK-UP**

Design: **Acropoli, Caimi Lab**

Codes: 1240, 1246, 1248, 1272, 1232, 1296, 1209, 1209-T, 1209-GM, 1209-BO, 1200, 1200-T, 1200-GM, 1200-BO, 1201, 1201-T, 1201-GM, 1201-BO, 1206, 1206-T, 1206-GM, 1206-BO, 1208, 1208-T, 1208-GM, 1208-BO, 1204-T, 1205, 1205-T, 1212-T, 1213-T, 1214-T, 1202-T, 1203-T, 1211-T, 1235-T, 1237-T

Codes: **1240 (aluminium profiles for columns) L 79,5 cm**
1246 (aluminium profiles for columns) L 159,5 cm

Description: profile for columns code 1232 made from extruded anodised aluminium. The profile measures 80x28 mm and has a rounded top and bottom; it comes with a groove on both sides to hook the various accessories. The two grooves allows it to be used single-sided or double-sided when desks are installed side by side. The profile slots into the upper high-tech polymer joints of the columns code 1232.

Codes: **1232 (columns for profiles)**

Dimension: Ø 4 cm - H 33 cm

Description: pair of columns, each composed of a high-tech polymer coupling to interlock the aluminium profiles (codes 1240, 1244, 1246) inserted at the top of the column made of Ø 40 mm steel tube in which is housed a zinc alloy clamp with internal steel screw to adjust the opening from 0 to 62 mm in order to connect it to the top. Metal grey epoxy-powder coated column and clamp.

Codes: **1272 (aluminum profile for wall-mounting)**

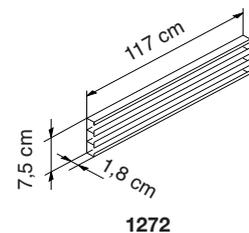

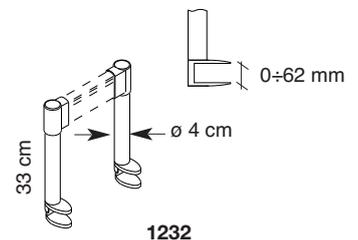

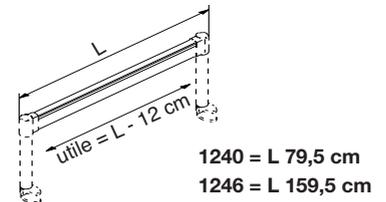

Dimension: L 117 cm - H 7,5 cm

Description: profile for wall-mounting made from extruded anodised aluminium with matt black high-tech polymer end caps. The profile has a 75x18 mm square measure and 3 grooves at the front to accommodate the various accessories.

Codes: **1296 (adapter)**

Dimension: Ø 3,8 cm

Description: high-tech polymer lamp adapter to be slotted into the top of the columns code 1232, with a central Ø 13 mm hole.

1296

Codes: **1209, 1209-T, 1209-BO, 1209-GM (letter-tray A4O format)**
1200, 1200-T, 1200-BO, 1200-GM (letter-tray A4V format)

Dimension: 35 cm - 27 cm - H 6 cm

Description: letter-tray made in of matt black, matt white, metal grey high-tech polymer or transparent polycarbonate. The edges are all rounded and it has an embossed base. The letter-tray may be leaned on the desk top or applied to the anodized aluminium profiles using the hook at the back. They can be stacked using 4 polycarbonate supports (1201, 1201-BO, 1201-T, 1201-GM), each fitted with a coupling fixture that slots into the grooves at the bottom and a latch that hooks onto the upper edge.

Codes: **1201, 1201-T, 1201-BO, 1201-GM (supports)**

Dimension: H 9 cm

Description: supports made in matt black, matt white, metal grey high-tech polymer or transparent polycarbonate material. This makes it possible to stack two or more letter-trays to create a single unit where each tray has a coupling fixture that slots into the groove at the bottom and a latch that hooks onto the upper edge of the letter-tray.

Codes: **1206, 1206-T, 1206-BO, 1206-GM (envelope-tray/object-holder)**

Dimension: 38 cm - 15 cm - H 6 cm

Description: envelope tray and object holder made in matt black, matt white, metal grey high-tech polymer or transparent polycarbonate. Multipurpose object with 3 compartments: an envelope rack compartment, an object holder compartment with an embossed base, and an object holder/pen holder compartment with wavy surface. The edges are rounded and may be leaned on the desk top or applied to the anodized aluminium profiles using the hook at the back

Codes: **1208, 1208-T, 1208-BO, 1208-GM (pencil-holder)**

Dimension: 8,5 cm - 9,5 cm - H 9 cm

Description: pencil holder comprising two compartments made in matt black, matt white, metal grey high-tech polymer or transparent polycarbonate. The edges are rounded and may be leaned on the desk top or applied to the anodized aluminium profiles using the hook at the back.

Codes: **1205, 1205-T (flower pot)**

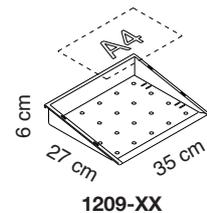

Dimension: Ø 4,5 mm - H 13 cm

Description: flower pot made of matt black high-tech polymer or transparent polycarbonate. The edges are rounded and is applied to the anodized aluminium profiles using the hook at the back.

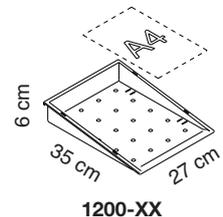

Codes: **1204-T (CD holder)**

Dimension: 85 cm - H 11 cm

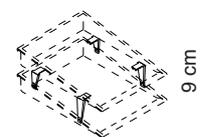

Description: translucent polycarbonate CD holder. It has 5 CD holder compartments. The edges are rounded and is applied to the anodized aluminium profiles using the hook at the back.

Codes: **1212-T, 1213-T, 1214-T (shelf and separators)**

Dimension: 24 cm - 25 cm - H 6/33 cm

Description: accessory line comprising: a shelf art. 1212- T made in translucent polycarbonate with rounded edges that is applied with a rear hook to the aluminium profiles and has shaped holes on the bottom to insert the 4 separators code 1213-T.

The separators are made in translucent polycarbonate with rounded edges and are each fitted with 4 hooks at the bottom to attach them to the shelf, an embossed front and a rectangular feed-through hole to make it easier to identify the sheets of paper/envelopes contained inside.

Code: **1202-T (folder rack)**

Dimension: 23 cm - 25 cm - H 25 cm

Description: folder rack made in translucent polycarbonate, with a wavy bottom to hold objects. The edges are rounded and it is applied to the anodized aluminium profiles by means of two translucent polycarbonate disks fitted with a hook.

Codes: **1203-T (lectern)**

Dimension: 22,7 cm - 34 cm

Description: lectern made in embossed translucent polycarbonate, with a raised edge at the front. The edges are rounded and it is applied to the anodized aluminium profiles using the hook at the back.

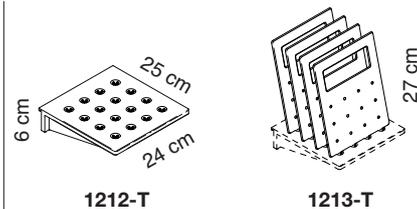

Code: **1211-T (storage container)**

Dimension: 23 cm - 25 cm - H 25 cm

Description: storage container closed by a front flap with a raised front edge that can also be used as a lectern. The container and flap can be easily split to create two separate objects (a folder rack code 1202-T and a lectern code 1203-T), both of which can be attached directly to the aluminium profiles. The folder rack made in of translucent polycarbonate, has a wavy bottom to hold objects.

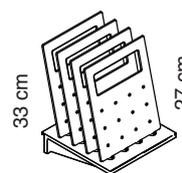

The edges are rounded and it is applied to the anodized aluminium profiles by means of two translucent polycarbonate disks fitted with a hook.

The flap/lectern, made in translucent polycarbonate, has a front handle which also acts as a paper holder when used as a lectern, it has an embossed front and all edges are rounded. It is applied to the folder rack by two hooks.

1211-T

Codes: **1235-T (photo frame/message holder)** 27,5 cm - H 11,5 cm
1237-T (photo frame/message holder) 27,5 cm - H 30,5 cm

Description: photo frame or message holder made in transparent methacrylate that can be applied to the aluminium profiles using two translucent polycarbonate couplings that slot into the shaped holes on the display units.
Fitted with an extraction-proof safety pin.

1235-T

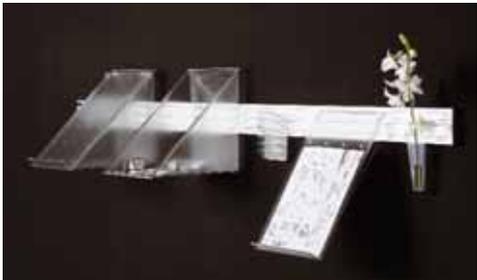

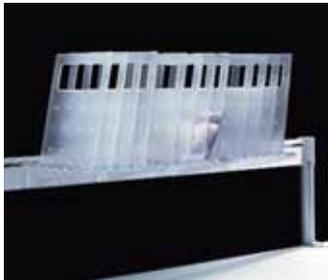

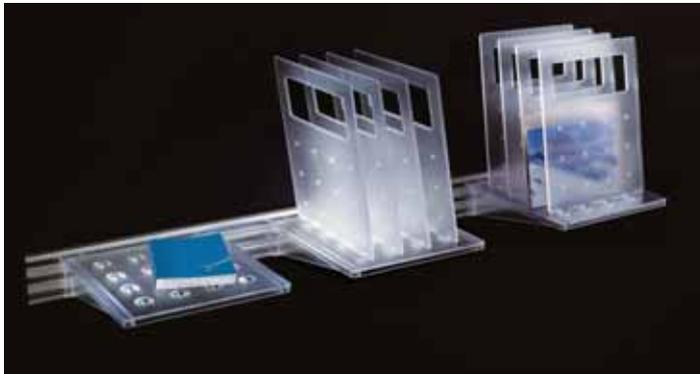

1237-T

Desk accessories hooked to column-mounted aluminium profiles.

Shelves and dividers hooked to column-mounted aluminium profiles or wall mounted aluminium profiles. The separators can be tilted to the right or left and can be mounted facing both the front or side.

The lectern can also be used individually or to close the folder rack.
