

# bouli

design:  
 UAP Julia Pawlikowska,  
 Olga Mężyńska, Urszula Burgieł  
 2011

UAP | POZNAŃ

The modules may be suspended, which gives the impression of floating in the air, or they be fixed to base. The main feature of design is the possibility to provide varied bases in terms of functionality and appearance – wooden legs, metal runners and short legs- so that the Bouli furniture may seem to be a pouf hovering in the air. The sets are available in two and three person versions.
